PASSENGER SHIPS
SCURRY FOR SHELTER

New York, Aug. 6.—The presence close to the American coast of warships of the warring European nations prepared to depend on and capture the merchant vessels of their opposing belligerents was evidenced today by news of great Atlantic liners arriving at Halifax, N. S., and by wireless reports of the warships' activities.

The fast Cunard liner Mauretania with 1,500 passengers from Liverpool, and the White Star liner Cedric from Queenstown today raced into the Canadian port, presumably to escape pursuit by two German cruisers, believed to be hovering in the vicinity of the Grand Banks for just such prizes.

These two cruisers in one report which came to the British consulate here from the captain of an incoming liner, were sunk by British warships, while pursuing the Lusitania yesterday, but the report could not be confirmed.

It was out of the confusion of many wireless messages that the report that the German cruisers had been sunk was picked up by the wireless operator of the steamer Uranium, whose captain it was that made the report to the British consulate.

In New York harbor lies the Hamburg-American liner Vaterland, apparently provisioning for service, but today the United States battleship Florida took position in the lower harbor and neither the Vaterland nor any other ship of a belligerent nation can pass her guns until the United States authorities have satisfied themselves that their departure will not violate the neutrality laws.

The Pannonia, which arrived in port during the night, left Gibraltar July 25 and until she approached this coast the officers had no knowledge of the situation in Europe. Several hundred miles out she received a message from a British cruiser warning her to beware of capture. All lights except those necessary to the navigation of the ship were immediately extinguished.

Early yesterday the Pannonia passed the Lusitania. The ship was dark except for her running lights and was being driven along at high speed. Soon after the Pannonia was in communication with a British warship which informed her that she might go ahead without fear, as there were several British ships within wireless call. Later the Pannonia's wireless operator heard German cruisers in communication with each other. The Hamburg-American line emphatically denied today reports that the steamer Vaterland was being fitted out here as a cruiser or that she would sail on any mission whatever.

Confirmation that the bog liner had sought a haven at Halifax gave color to the many reports of wireless messages of activities of German war vessels off the American coast. Details of her reasons for entering Halifax further than the brief statement that she had been ordered to do so by the British cruiser Essex were lacking at the Cunard line offices here.

TWO MORE GERMAN CRUISERS ARE REPORTED DESTROYED
New York, Aug. 6.—Captain Hestia of the Uranium liner announced at the British consulate today that he had intercepted yesterday wireless messages from the steamer Lusitania, saying that two German cruisers which had been pursuing the Lusitania had been chased and sunk by two British warships.

The Uranium reached port yesterday.

Uranium line officials who saw Captain Hestia after his arrival here said today that the captain had not reported intercepting such a message and that they were unable to confirm it.

The wireless station at Sayville, to which the alleged message from the Lusitania was addressed, according to Captain Hestia, said today that it had not received such a message.

The message, Captain Hestia said, contained the additional information that the Lusitania was continuing its trip to England.

The Lusitania sailed from New York with darkened lights, shortly before 2 o'clock yesterday morning.

BRITISH CRUISERS ESCORT LINER INTO HALIFAX
Halifax, Aug. 6.—The Cedric of the White Star line has put into Halifax with passengers.

It was reported here, but not confirmed, that the Mauretania while at sea had sent a wireless message to the British cruiser Essex, asserting that a German cruiser was following her and that the Mauretania asked assistance. The report was to the effect that the Essex came up immediately and stood by the Mauretania until she came into port. It is believed here the Essex and possibly other British cruisers will enter the harbor today.

BURNING GASOLINE

OF COLLISIONExplosion of Motor Car Tank
Responsible for Many Dead
Disaster on Kansas City
Southern.

Joplin, Mo., Aug. 6.—The thirty-eight killed and two score injured in last night's wreck at Tipton Ford, ten miles from here, when a Kansas City Southern passenger train collided with a Missouri & North Arkansas railroad gasoline motor car, were brought here early today. Many of the dead and injured were badly burned by the explosion of the gasoline tank on the motor car.

The huge gasoline supply tank for the car's big motor bus, saturating the imprisoned passengers. Then the gasoline caught fire.

Bodies of many of the dead were almost consumed by the fire and many persons pinned beneath the wreckage received severe burns in addition to wounds.

Complete identification of the dead will have to await a canvass of those who escaped, as a number of bodies are unrecognizable.

Twenty bodies of the thirty-eight recovered from the wreck had been identified today. The delay in identification is because many of the bodies were charred almost beyond recognition. All of the dead so far identified were residents of Missouri, most of them from Joplin and Neosho.
